H1N1 Vaccine Now Available to All Calhoun County Residents

All Restrictions have been Lifted

The Calhoun County Public Health Department is now providing H1N1 vaccinations to all Calhoun County residents. All priority restrictions have been lifted.

As a result of lifting the restrictions, CCPHD will inventory our supply and increase distribution to all providers with CCPHD H1N1 agreements next week. This will allow residents to get their H1N1 vaccination in physician offices who agreed to be H1N1 vaccine providers.

For your information, CCPHD is hosting the following two clinics this weekend:

- Saturday, December 12, 9am – Noon: Northwestern Middle School, 176 Limit Street, Battle Creek
- Sunday, December 13, 10am – 2pm: Calhoun County Public Health Department, Toeller Building – Basement Conference Room, 190 E. Michigan, Battle Creek

CCPHD is also offering H1N1 vaccine at the Health Department (190 E. Michigan, Battle Creek) **EVERY:**

- **Tuesday from 1pm – 4pm**
- **Thursday from 8am – 11am & 1pm – 4pm.**

H1N1 Booster doses will also be available at all clinics.

Vaccinations are free! We do ask that you bring your insurance or Medicaid card with you. There is **no appointment necessary.**

There are questions throughout the community regarding vaccine safety. The following link provides answers to vaccine questions. <http://www.cdc.gov/Features/H1N1Vaccine/>

H1N1 information can be found on our website at www.calhouncountymi.gov/publichealth or at www.cdc.gov/h1n1flu. We continue providing updates to 211 as well.
